

ALUMINIUM FRAMELESS ROOFLIGHTS

Our frameless rooflights combine a sleek, flush design with high-performance glazing to maximise natural light and uninterrupted sky views.

With excellent thermal efficiency, a standard U-value of $1.0W/(m^2K)$, and a minimalist architectural finish, they create brighter, more comfortable living spaces and are the perfect choice for contemporary extensions and renovations.

AT A GLANCE...

- » Range of glass options
- » U-value of $1.0W/(m^2k)$ or lower dependant on glass
- » Kerb available to match
- » Made to measure

SPECIFICATION OPTIONS

OPENING: Fixed

GLAZING:

Toughened
U-Value
1.0W/(m²k)

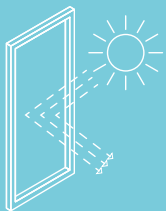

Solar
U-Value
1.1W/(m²k)

Satin
U-Value
1.2W/(m²k)

Blue Solar
U-Value
1.2W/(m²k)

Solar Self Clean
U-Value
1.0W/(m²k)

SIZES:

Made to measure with a minimum size of 500mm x 500mm and a maximum size of 2500 (l) x 1500mm (w).

SAFETY

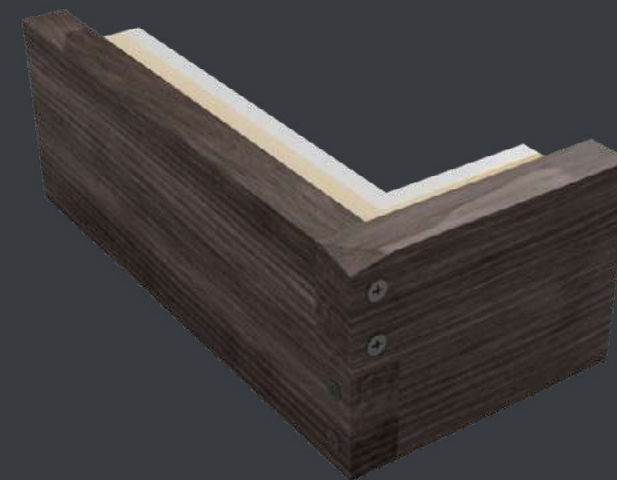

Every rooflight comes with toughened glass as standard, helping to ensure the safety of those beneath it.

Suitable for commercial and domestic applications, our toughened glass rooflights offer added protection and peace of mind. This makes them an ideal choice for high-traffic areas, busy working environments and any space where safety is a key priority.

KERB

Available as an optional extra with our frameless rooflight, the kerb removes one of the most difficult details from site by providing a ready-made insulated support upstand.

IMPROVES THERMAL CONTINUITY
Reduces cold bridging at the upstand.

CONSISTENT QUALITY
Factory manufactured for reliable, repeatable performance.

FASTER INSTALLATION
Lightweight, pre-built solution saves time on site.
